

Top 5 Reasons to Upgrade to Qualify 12

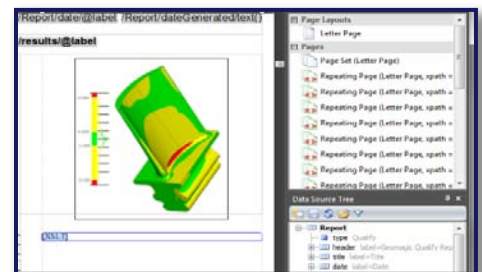

1 Enhanced User Experience

With its state of the art Ribbon interface, Qualify is easier to learn and use. Simple Ribbon commands replace complex dialogs. A new Start Page provides immediate access to recent files and commonly used functions. Enhanced tool tips provide on the spot help in local languages and users can customize Ribbons to reflect their inspection workflows.

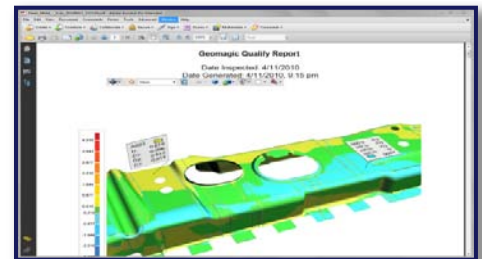

2 Integrated Report Customization

Qualify now features an integrated report designer that combines power with simplicity. Create, edit, and share report templates to meet any inspection requirement. Combined with a simplified user interface and new report formats, Qualify inspection reports are faster, simpler, and more powerful than ever before.

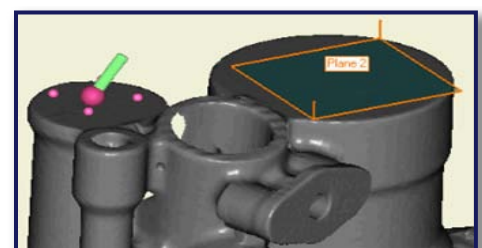

3 3D PDF Reports

Qualify changes the game in communicating inspection results with integrated 3D PDF reporting. With a single click you can generate inspection reports with fully interactive 3D models complete with 3D deviation color mapping and annotations. These 3D reports can be viewed by anyone using the free Adobe Acrobat reader.

4 Enhanced Hardware Integration

Qualify 12 features new tools for part to device alignment, bolt circle probing, and measurement of probed features. In addition to these new and enhanced functions, Qualify supports an enhanced lineup of hardware plug-ins and file format support.

5 New Alignment and Analysis Tools

For high precision alignment Qualify now features weighted RPS alignment which allows inspectors to set tolerance priorities on alignment targets. High point feature fitting options provide more precise contact feature fitting. New Annotate Features and Point Coordinates functions simplify inspection analysis.
